

Exercise #2

Exercise Deliverable:

Submit your exercise as a single PDF document on Canvas that has the answers for the following requirements.

Exercise Objectives:

Use the conceptual data model and its core data-modeling blocks: attributes, entities, relationships, and cardinalities in order to generate and explain the Business Rules for the given data model

Exercise Requirements:

1. Discuss the entities, attributes, and the relationship cardinalities presented in the Crow's Foot ERD
2. Write the business rules that are reflected in the following Crow's Foot ERD. An example of a business rule in the given ERD: **Every customer can have many invoices.**
